- ★ Decode individual manufacturer's codes
- ★ Assists in identifying packages
- ★ Know exactly what equipment is and is not installed
- ★ Know the exact exterior colour
- ★ Determine who did what when the Porsche was built
- ★ Helps determine true value
- ★ Save money when purchasing replacement coloured items
- ★ No need to search the internet
- ★ All the answers are in this book

DESCRIPTION

This book provides a comprehensive list of all the build specification codes used by Porsche AG for the Porsche 911 series, from model years 1989 to 2005. VIN, model type, country, exterior paint colour, interior colour combinations, material codes, and standard, special and Porsche Exclusiv options for the 964, 993 and 996 series are provided in detail. Option codes for other Porsche models built between 1978 and 2005 are also included, if known to the author.

THE AUTHOR

Adrian Streater is a well-established professional author. In the Porsche world his expertise has been directed at the various 911 series. However, whilst still primarily aimed at the 911 owner, Adrian has decided to combine his vast reservoir of knowledge and data library of Porsche build and option codes, gathered over many years of Porsche ownership, into one easy-to-read handbook. One of the first questions asked by Porsche enthusiasts of a specific Porsche is: "What do the numbers on this identification label mean?" Adrian provides the answers in his latest work.

SPECIFICATION

Paperback. 96 pages. 139mm x 195mm (5⁷/₁₆in x 7¹¹/₁₆in tall). 46 mainly colour pictures.

SALES

Veloce books are stocked by or can be ordered from bookshops and specialist mail order companies.
